

Internship Admissions, Support, and Initial Placement Data

Internship Program Admissions

Date Program Tables are updated: July 6, 2021

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

We strive to recruit interns who are prepared to meet the challenges of this internship. As such, we seek interns who have a strong background in at least one of the following areas: developmental disabilities, pediatric neuropsychology, or pediatric psychology. Successful applicants are expected to possess training and experience that is consistent with Health Service Psychology. That is, we select interns who have didactic training and supervised experience in the nine Profession Wide Competencies. We attempt to recruit interns from doctoral programs that emphasize empirical, data-based approaches to the practice of psychology. We expect that successful applicants have experience using the scientific literature to develop assessment and treatment strategies and we evaluate the applications accordingly. Particular attention is paid to the extent to which the applicant has received supervised practica experience with children and families in the areas listed above.

Does the program require that applicants have received a minimum number of hours of the following at time of application?

Total Direct Contact Intervention Hours	Yes, minimum of 350 hours
Total Direct Contact Assessment Hours	Yes, minimum of 350 hours

Describe any other required minimum criteria used to screen applicants:

Applicants from APA- or CPA-accredited programs in clinical, school or counseling psychology with strong backgrounds in child clinical or pediatric psychology are preferred. Comprehensive exams must have been passed by the application deadline, and the dissertation proposal must be defended by the start of the internship. Immediately before the start of the internship year, a criminal and background check will be completed for each intern. In order to start the internship, the results from the criminal and background check must meet Johns Hopkins All Children's Hospital requirements for working with patients. Applicants who are not U.S. citizens must be eligible for and receive a U.S. visa for the internship year.
