Multidisciplinary Clinic Spotlight

The Torticollis Clinic features a team of specialists who treat infants and children of all ages. A physiatrist and a physical therapist will evaluate the patient during their initial visit to develop a treatment plan, for severe cases surgical intervention may be needed. Families can plan to leave their first treatment appointment scheduled.

The earlier the intervention for torticollis, the better. Some indicators include:

- A child only looking to one side
- Tilting of the head toward one shoulder or the other
- Difficulty holding the head up straight
- Flatness to one side of the head

The Torticollis Clinic is offered at two outpatient care centers:

**St. Petersburg, Main Campus**
First and third Fridays of each month

**Tampa**
Second and fourth Tuesdays of each month

For more information or to refer a patient, call 727-767-7272 or visit HopkinsAllChildrens.org/services/rehabilitation/physical-therapy/torticollis
Doctors’ Day Physician Social

Please join The Johns Hopkins All Children’s Physician-in-Chief, Department Chairmen and Institute Directors for a night of recognition and appreciation for the care you provide to our children. We are truly grateful to all physicians for their extraordinary commitment to patients and families and their role in providing care, cures and hope.

Wednesday, May 9, 6:30—9 p.m.
7:30 p.m. Brief program and remarks

Duncan McClellan Gallery
2342 Emerson Avenue S.
St. Petersburg, FL 33712

Kindly RSVP at HopkinsAllChildrens.org/docday2018

Doctors' Day Celebrations

Doctors' Day is March 30, a day to dedicated to honor physicians for their excellent care of and contributions to the health of patients and communities. Please join us for a Doctors Day Social to be held on May 9 at 6:30 p.m. at the Duncan McAllan Gallery in the Arts warehouse district of St. Petersburg. All physicians from throughout the region are invited. A printed and electronic invitation will be forthcoming with details and RSVP mechanism. To learn more or RSVP early, please contact Jennifer Garcia at jgarcia70@jh.edu.

Neurofibromatosis Education Symposium

Healthcare professionals and patients are invited to join us for a day of discussion to hear from patients and families living with Neurofibromatosis (NF), NF Medical Professionals and our keynote speaker, Bruce R. Korf, M.D., Ph.D., director of the University of Alabama Neurofibromatosis Program. Dr. Korf has a longstanding clinical and research interest in neurofibromatosis.

The Neurocutaneous Disorders Clinic at Johns Hopkins All Children’s Hospital provides comprehensive care for children and adolescent patients with neurocutaneous disorders including neurofibromatosis type 1 & 2 and tuberous sclerosis.

Saturday, May 12, 8 a.m.—4 p.m.
Outpatient Care Center Conference Room A
601 Fifth Street S.
Saint Petersburg, FL 33701

Meet the Johns Hopkins All Children’s Pulmonology Providers

The pediatric pulmonology program treats children with acute and chronic diseases of the respiratory system including asthma, acute and chronic pulmonary infections, sleep disorders and cystic fibrosis.

**Tony Kriseman, M.D.**, is the head of the pediatric pulmonology division and also serves as a clinical professor in the Department of Pediatrics at the USF Morsani College of Medicine. Dr. Kriesman specializes in treating patients with cystic fibrosis. He offers outpatient care appointments at our main campus, Tampa, Brandon and South Tampa.

**Deanna Green, M.D.**, is the medical director of the nationally accredited Cystic Fibrosis (CF) Care Center and the CF Therapeutic Development Center at Johns Hopkins All Children’s Hospital. Dr. Green is also an assistant professor of pediatrics with the Johns Hopkins University School of Medicine. Her focus is on clinical care for patients with CF and clinic research using genetic modifiers of CF disease. She offers outpatient care appointments at our main campus, Sarasota and East Lake.

**Carolyn Robinson, M.D.**, is a pediatric pulmonologist specializing in pediatric asthma, cystic fibrosis and other lung disorders in children and teens. She offers outpatient care appointments at our main campus, Tampa and Pasco.

**Scott McKinley, D.O.**, is a pediatric pulmonologist specializing in treating patients with cystic fibrosis, pulmonary hypertension, acute asthma, lung disease related to sickle cell disease, interstitial and rare lung disease. He offers outpatient care appointments at our main campus, Sarasota, North Port and East Lake.
