U.S. News & World Report

Johns Hopkins All Children’s Hospital ranks as the top pediatric hospital on Florida’s west coast, ranking among the nation’s best in five specialties.

#31 Neonatology
#32 Orthopedics
#37 Neurology and Neurosurgery
#44 Cardiology and Heart Surgery
#50 Nephrology

Both Neonatology and Nephrology achieved the highest rankings in Florida in their category. Each year, U.S. News & World Report conducts a survey of pediatric specialists and collects clinical data related to patient outcomes, such as mortality and infection rates, clinical resources and compliance with best practices. The information gathered helps families with children who have life-threatening illnesses find the best medical care available. The report serves as the only comprehensive source of quality-related information on U.S. pediatric hospitals.

We are truly grateful to all physicians and clinical teams for their extraordinary commitment to patients and families. Visit HopkinsAllChildrens.org to learn more about the specialties that ranked.
Outpatient Care Center Spotlight

The Johns Hopkins All Children’s Outpatient Care, Pasco, offers frequently needed medical, laboratory and therapeutic services in a convenient New Port Richey location. We see and treat patients for a variety of services:

**Rehabilitation/Audiology Services**
Occupational therapy, physical therapy, speech language pathology, audiology

**Medical/Surgical Specialties**
Sports medicine, neurology, cardiology, orthopedics, pediatric surgery, urology, psychiatry, pulmonology, nephrology

**Diagnostic Services**
Echocardiograms, EKG/Holter monitoring/event monitoring, nutritional services, pediatric laboratory services, pediatric radiology (X-ray), pulmonary function testing

**Spotlight on Sports**
The Johns Hopkins All Children’s Outpatient Care, Pasco, location is here to care for young athletes. Our services for athletes feature the AllSports Medicine program, which includes sports medicine as well as sports and orthopedic rehabilitation. This program was the first and continues to be the largest pediatric sports medicine program in the Tampa Bay area. The Pasco sports rehab team includes physical therapists, occupational therapists and athletic trainers who collaborate with multiple pediatric specialists to treat a variety of conditions:

- Sports medicine for non-surgical orthopedics and concussion
- Orthopedic surgery for sports
- Scoliosis
- Orthopedic conditions
- Psychiatry for chronic pain and medically-complex pain management
- Rheumatology for chronic pain due to auto-immune disorders
- Neurology for headaches/ migraines, and balance disorders

The team offers one-on-one assessments and individualized treatments based on the patient’s physical, emotional, and skeletal maturity for all diagnoses. For the athlete, our clinicians are also knowledgeable in the physical demands of specific sports positions offered at the recreational, competitive and elite-level of participation with focus in preventative management. Carlos Rodriguez, M.D., AllSports Medicine physician, has office hours every Monday at the Pasco location. Drew Warnick, M.D., and Paul Benfanti, M.D., orthopedic surgeons, and James Chinarian, M.D., psychiatrist, care for patients in Pasco as well.

Taylor Lanctot Appointed Director of Advanced Practice Professionals

Taylor Lanctot was recently promoted to Director of APP. Taylor will work closely with medical staff division chiefs to define and leverage the most effective APP models of collaborative care and ensure that APPs practice to the full extent of their license and education inpatient and ambulatory settings.

Taylor joined JHACH in 2007 as APP Clinical Manager for the Departments of Surgery and Anesthesia. She holds an M.S.N. from Emory University and D.N.P. from University of Alabama.
Multidisciplinary Clinic Spotlight

Chronic Pain Clinic

The pain management team provides chronic pain management services to infants, children and adolescents. Our chronic pain service team works with the health care teams, patients and families to provide an individualized pain management plan. We manage chronic pain with non-narcotic pain medication and regional pain blocks. Regional pain blocks are administering local anesthetic around the nerve to numb the pain in that area of the body. Our team tries to avoid narcotics given the high chance of opioid misuse and addiction. Our goal is to treat the patient’s pain and help them continue to participate in activities of daily living, such as watching TV, eating, texting and interacting with family and friends.

Conditions we treat:

- Amplified pain syndrome
- Lower back pain
- Chronic pain related to sickle cell disease
- Functional abdominal pain and headaches

The Chronic Pain Clinic is offered at our outpatient care center: St. Petersburg, Main Campus

For information or to refer a patient, visit HopkinsAllChildrens.org or call (727) 767-PAIN (7246).

Wednesday, June 20, Cafeteria – Sports Medicine Team: Brain Olympics

Thursday, June 21, OCC A – Dr. James Chinarian & Mildred Dones: Rehab Medicine: Early Mobility*

Thursday, June 29: OCC A – Dr. Parrish Winesett: Neurology: Seizures 101*
