Johns Hopkins All Children’s Hospital, based in St. Petersburg, Florida, since 1926, is part of a non-profit health system that is committed to improving children’s health throughout the west coast of Florida and beyond. Ranked as a U.S. News & World Report Best Children’s Hospital in multiple specialties, Johns Hopkins All Children’s has collaborations across the region to bring high quality care to kids close to home.
Our Mission

**TREATMENT** — Deliver quality services with compassion and commitment to patient safety and family–centered care

**EDUCATION** — Teach the next generation of health care professionals and provide educational programs for our patients, families and employees

**RESEARCH** — Discover new information about the origins of disease and conduct innovative research that advances the diagnosis, treatment and prevention of childhood diseases

**ADVOCACY** — Provide leadership in promoting the well-being of children

---

**Education**

*We believe expert care begins with education both for health care professionals and patient families.*

- 36 Pediatric residents training in the Johns Hopkins All Children’s residency program along with a growing number of fellows
- 40+ Year relationship with USF Health in training its Morsani College of Medicine pediatric residents
- 100+ Full- and part-time faculty of The Johns Hopkins University based in St. Petersburg
- 15 Simulation rooms in the Center for Medical Simulation and Innovative Education, including mock patient rooms, an operating room, ambulance, elevator and home environment

---

**Research**

*We seek to improve the health of children by providing patients and health care professionals with access to innovative research opportunities.*

- 500+ Active research studies
- 144 Peer-reviewed scientific and medical articles published in scientific and medical journals
- 1,000 Approximate number of de-identified data inputs on patient vital signs continually collected for analysis in the hospital’s critical care units
Treatment

Johns Hopkins All Children’s offers expert care in more than 50 pediatric specialties and sub-specialties.

- 2,200+ Admissions to our intensive and intermediate care units
- 800+ Admissions to our American Academy of Pediatrics Level IV NICU
- 5,000+ Annual inpatient admissions
- 7,100+ Annual surgeries
- 34,000+ Annual Emergency Center visits
- 296,000+ Annual outpatient care visits at locations throughout the west coast of Florida

U.S. News & World Report ranks us #1 in the state for 2021–2022 with eight of our specialty programs ranked nationally among children’s hospitals.

- 120+ Very low (3 pounds, 5 ounces) and extremely low birth weight (less than 2 pounds, 3 ounces) babies treated in the Neonatal Intensive Care Unit (NICU)
- 47 Blood and Marrow Transplant and CAR-T immunotherapy procedures in 2020-21, more than any other Florida children’s hospital
- 63 Percentage of our hospital beds devoted to intensive care units

Admissions in the fiscal year to the Center for Congenital Diaphragmatic Hernia (CDH), which has a success rate since 2016 exceeding 90 percent, well above national benchmarks.

Statistics are from July 1, 2020–June 30, 2021 unless noted.
We stand with all children and families to advance an equitable quality of life for all within the hospital and community through advocacy, education and collaboration.

For Pinellas County, our Community Benefit Service Area (CBSA), in FY 2020

- **17%** of children under 18 in our area live in poverty. As the organizer for the Healthy Start program in St. Petersburg, we seek to improve outcomes for young children.

- **51%** of school-age children in our area are eligible for free or reduced school lunch. We were the first hospital in Florida to become a Summer BreakSpot to provide meals for these children when school is out. As of the 2021–2022 school year, lunch will be free for all students.

- **79%** of our patients are from Hillsborough, Manatee, Pasco, Pinellas or Sarasota counties. Our community programs are designed to educate and advocate for all children to be safe and healthy.
